

Conditions for placing our kittens

- **Possible reservation - deposit**

If you decide to acquire a bengal from Poeticpaws, you have the possibility of reserving a kitten for the sum of **Sfr 350,-** . This deposit guarantees that a kitten of household pet quality from a given litter will not be put up for sale, it will be withheld and reserved for you.

This guarantees the sex, together with the pattern of the coat (either spotted or marble) that you have chosen.

Up to the age of six weeks, we will allow you the possibility to change your decision with the choice of another kitten from a different litter. Over the age of six weeks, we are faced with the situation where it would be difficult to assure its re-homing at the same time as the other kittens in its litter. Therefore should you decide to withdraw from the agreement, the deposit will not be reimbursed

If, for one reason or another, we are unable to offer you an alternative kitten within the year of your reservation, the deposit will be reimbursed or could otherwise be used for the following year.

We reserve the right to refuse the sale of a kitten for whatever reason and at whatever time, in this case the deposit will be fully reimbursed.

- **Confirmation of sale**

Once the kitten reaches 8 weeks of age, a second payment is required to complete the sum equivalent to 50% of the purchase price of the kitten. The final payment must be made before or on the day that the kitten leaves our cattery.

- **Kitten's re-homing**

Kittens leave between 12 and 14 weeks. In general, kittens destined for company as a household pet are spayed or neutered before they leave.

- **Price of a kitten** as a household pet: Frs 1'700,-

- **Included in the price:**

- Vaccination after 8 weeks : Typhus et Coryza (Leukemia is optional)
- Booster at 12 weeks : Typhus et Coryza (Leukemia is optional)
